### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest providing a workstation including a presentation support structure including a header and a lower shelf, the presentation support structure defining a presentation area between the header and the shelf, a work support structure movably connected to the presentation support structure, the work support structure having a work side and an ornamental side and being movable from a first position wherein the work side is generally transverse to the presentation area to a second position wherein the work side overlays the presentation area and an adjustable arm having a first end connected to the workstation and a second end connected to a mounting structure, the adjustable arm allowing movement of the workstation between an extended working position away from the mounting structure and a retracted, stored position adjacent to the mounting structure. The prior art of record does not teach any motivation to combine a workstation with the claimed presentation support with an adjustable arm as claimed. It is noted that the proposed amendments to the specification and drawings have been approved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
